Queridos colegas, enhorabuena a todos y gracias por vuestro trabajo. Escribo desde fuera y mi ordenador ha cascado con lo que no sé si estáis todos los que sois o si estáis más de los que sois...

Un abrazo:

fer

PONE-D-12-09802R1

DNA vaccination partially protects against African swine fever virus lethal challenge in the absence of antibodies

PLoS ONE

Dear Dr. Rodríguez,

I am pleased to inform you that your manuscript has been deemed suitable for publication in PLoS ONE.

Your manuscript will now be passed on to our Production staff, who will check your files for correct formatting and completeness. After this review, they may return your manuscript to you so that you can make necessary alterations and upload a final version.

Before uploading, you should check the PDF of your manuscript very closely. THERE IS NO AUTHOR PROOFING. You should therefore consider the corrected files you upload now as equivalent to a production proof. The text you supply at this point will be faithfully represented in your published manuscript exactly as you supply it. This is your last opportunity to correct any errors that are present in your manuscript files.

If you or your institution will be preparing press materials for this manuscript, you must inform our press team in advance. Please contact them at ONEpress@plos.org.

If you have any questions, concerns, or problems, please contact us at plosone@plos.org, and thank you for submitting your work to our journal.

With kind regards,

Elankumaran Subbiah, BVSc, MVSc, PhD, DACVM
